May 2011

Dear Parent/Guardian:

New York State Department of Health requires that a student must receive a booster dose of Tdap to be in compliance with NYS immunization requirements for 6th grade entrance/attendance.

A booster dose of Tdap is recommended by the Advisory Committee on Immunization Practices (ACIP) between the ages of 11-12, but can be received as early as 10 years of age.

If you have additional questions, call NYSDOH Immunization Program at (518) 473-4437.

Please schedule an appointment with your child's health care provider to obtain the Tdap booster before September 2011. Kindly return this form with documentation of immunization.

Thank you for your cooperation in keeping your child healthy.

Nancy Beach RN
school nurse

My child, _____, received the Tdap booster on _____
