4th Grade Community Supplies

WHAT IS IT?

This system helps foster a sense that the classroom and everything in it belong to everyone; it helps children learn how to share and cooperate; it cuts down on competitiveness and one-upmanship; and it ensures that all children have what they need.

WHY ARE WE USING THIS SYSTEM?

While families enjoy shopping for school supplies, these “private stashes” can leave some children with inferior supplies and cause bickering and hurt feelings when children lend supplies only to certain classmates. We have found that switching to a community supply system—all supplies are shared by everyone—makes for a much more peaceful classroom.

SPECIAL SUPPLIES

There are a few supplies you will see on the other that **will** be just for your child. Besides these items, you are more than welcome to buy special supplies for your child, though, to be fair to the other children, special supplies will have to stay at home to be used for project work done there.

We are so excited to have your child in our class this fall! Have a great summer!
